Further Considerations

Preparation

- Chat to your International Exchange Advisor
- Be proactive about accommodation
- Check your host university website and country information
- Consider visa/immigration issues well in advance
- Speak to former students who have been to your host university in previous years

Do not make any financial commitments (flights, visas, accommodation etc) until your placement has been approved by the University

Risk Assessment

- University requirement for an international work or study placement
- You must not travel before receiving formal approval from the University to do so
- Asks questions about:
 - Travel guidance for your host country
 - Visa requirements for your host country
 - Academic contingency plan
 - Details of nearest relevant embassy/consulate
- Once submitted approval will be sought from School

Visas (Research this early)

- All queries about visa and immigration requirements for UK citizens should be directed to the relevant Embassy/Consulate here in the UK and your prospective host institution
- **UK nationals** will be eligible to stay in the EU for **no more than 90 days** in any 180-day period without a visa. If you intend to stay in the EU for more than 90 days, you will require a visa to stay in your host country
- Check FCDO travel advice
- Please be aware that, for some countries, your visa application must be made in person at an application centre in Scotland or England. You may be required to attend an interview or biometric testing as part of the application process
- May be a requirement to submit supporting documents which are translated into the language of your host country
- Students should be aware that leaving their host country, even temporarily, might affect their immigration status (and ability to return to their host country)
- You should also check that your passport remains valid for travel within the EU
- Non-EU/UK passport holders – you may also require a visa and therefore you should refer to your relevant embassy/consulate here in the UK
- Holders of an Irish or other EU passport may continue to move and reside freely within the European Union

Insurance

Make sure you are fully insured for your period abroad – travel, health and possessions

Queen's Emergency Medical and Travel Cover

- Medical Cover will apply to University authorised travel
- No cover will be provided for cancellations/curtailments that result from future COVID-19 restrictions
- Be aware of £50 excess
- Does not cover some personal activities such as extreme sports
- Exclusion on personal mobile phone claims

Once Risk Assessment has been approved you will receive link to form

To be covered under the Queen's Emergency Medical and Travel Cover, you must complete the Queen's online Travel Notification Form.

It is very important that you do so.
