Dear colleagues,

You have been granted 24-hour pre-release access to the following statistics:

- LUNG, COLORECTAL, BREAST, MELANOMA AND UPPER GI CANCER INCIDENCE AND SURVIVAL STATISTICS FOR NORTHERN IRELAND: 1993-2022

Please see attached a briefing covering the content of the statistics along with a copy of the summary factsheets for each cancer type. These statistics will be available on the NI Cancer Registry website tomorrow morning (Wednesday 20th November 2024) from 9.30am. Until that time these attachments are restricted to those on the pre-release access list only.

The document has the following security marking.

Official Statistics - *please treat as protected, for named individuals or identified post holders only. Not for sharing with anyone else or to be used in other documents before publication.*

If you think you need to discuss and share with anyone not on the circulation list first contact the Northern Ireland Cancer Registry by replying to this e-mail. Any accidental or wrongful release should be reported immediately and may lead to an inquiry. Wrongful release includes indications of the content or the trend of the figures, including descriptions such as 'favourable' or 'unfavourable'.

Regards,

David Donnelly/Damien Bennett

Dr David Donnelly,
