

James Caldwell International Travel Scholarship

The Scholarship was established by Professor James Caldwell in 2010. Professor Caldwell achieved a 1st class Honours BSc degree in Applied Mathematics in 1964 followed by an MSc in Numerical Analysis in 1966. After lecturing overseas in England and Australia he returned to Queen's for the award of a higher doctorate (DSc) degree in 1985. He was then invited back to the University in 1986 as a Visiting Professor to give a series of lectures on his research work.

This Scholarship aims to assist Postgraduate Research Students within the School of Mathematics and Physics, in areas closely allied to Applied Mathematics (such as theoretical physics) access to online or in-person Schools, Courses and Conferences during the academic year.

The Scholarship aims to support interaction between postgraduate research students and international collaborators. The Scholarship thereby also aims to improve the international visibility of these students.

The Scholarship will be made available to Postgraduate Research Students through an application process detailing the online/in person activity to be undertaken, the aims of the activity/course and the amount of fees sought. Applications are to be made to the Head of Centre for Quantum Materials and Technologies (CQMT) or the Head of Centre for Light-Matter Interactions (CLMI), whichever one the student is based. Applications will be considered by selected members of staff who are not the principal supervisor of any applicant.

Head of CQMT – Dr Amit Kumar, email a.kumar@qub.ac.uk

Head of CLMI – Professor Marco Borghesi, email: m.borghesi@qub.ac.uk
