Account of monitoring results.

A small trench (0.3 m x 0.34 m) was excavated to a depth of 0.75 m for the installation of an information board at Clonlum South Cairn, County Armagh. The site and surrounding fields are scheduled and as a result scheduled monument consent was required for the placement of the information board. During the excavation two deposits were revealed.

The first deposit (Context No. 101) was a brown loam topsoil, which extended to a depth of 0.2 m. Underlying Context No. 101 was an orange-brown clay loam deposit (Context No. 102) which extended to a depth of at least 0.75 m, where excavation terminated.

No features or finds of archaeological importance were uncovered during this excavation.
